About Notarius International

Notarius International is a law review edited by the International Union of Notaries (UINL - Union Internationale du Notariat), the world-wide association of civil law notaries. Notarius International aims to provide a forum that facilitates the international aspects of notarial work. Comparative work in any field of law dealt with by notaries is welcomed, e.g. law of obligations, land law, family law, law of successions, company law, international private law, notarial and procedural law. By providing this platform for international exchanges of views and news, the International Union of Notaries (UINL) aims to support notarial practitioners in solving international law problems arising from their work as well as to facilitate research by scholars in comparative law in these legal fields. The UINL further aims to strengthen relations with its members, including both institutional and, in particular, individual members, as well as with the numerous international and supranational organisations to which the UINL is affiliated. Notarius International is published in five languages: English, French, German, Italian and Spanish.
